What it means to us:

A celebration of differences and a passion for personalization

At UNYQ, we do individuality. We create prosthetic covers that protect you
and reflect you, mentally and physically.

We've unlocked the power of choice. Our design process enables
innovative and individuality in every object we create.

In a sense you have made it yourself!

REBELLION

UNYQ is about more than our wears.
We're a philosophy – a way of life.
Together, we're a community
with bravery and rebellion at its core.
We laugh in the face of normal.

PERSONALIZED

It's not just about functionality, now it's time to
own personality! Combine your favourite design
extras, as vinyls or engraved images

MODERN AND STYLISH

Give style to your prosthesis and express your personality with the colors of your choice, and include your own designs, to create your own UNYQ style.

FLOW

CUSTOM TO EVERY PROSTHESIS AND EVERY BODY

Knee, foot, socket, length, alignment... every combination differs. Our designers make it fit the exact prosthesis. That's not enough as every body is different. Each cover is designed specifically for each person, combining the fitting to their prosthetic components in order to have the best symmetry with the sound leg.

PROTECTS YOUR GEAR

Like a bumper of a car, our covers protect your expensive prosthetic components from damage. They also stop clothes getting pinched or caught in your prosthetic components. Our covers are water resistant and easy to dry.

RIVET

OUR COLORS

Colors to suit every taste! More than 40 colors to choose from and infinite options to combine in your cover, socket, orthosis... Each of them can be coated in matt or glossy, on your preference. These are just examples of what they could look like.

For more info about suitable colors for each product, please visit our UNYQ App, website or contact us at hello@unyq.com.

We try our best to reproduce the colors in this catalog, please keep in mind that the final result may be slightly different from the colors seen on the website, App or catalog.

MORE OPTIONS FOR YOUR COVERS

SAFE ATTACHMENT

Magnets & Fast-clamp

Our covers are attached to the prosthesis with strong magnets and our easy fast-clamp system by default.

DESIGN EXTRA

Knee protector

For those who usually kneel down with their covers on, the knee protector is the best option to keep that part safe from scratches.

SOLUTIONS FOR EVERYONE

OSSEOINTEGRATION

Designed to match the stump shape while feeling comfortable.

POLYCENTRIC KNEES

Adapted to allow the movement of the knee, max flexion, etc.
